

NEW BUILDING FOR THE UNION TRUST COMPANY.

PLAN OF NEW BUILDING

Union Trust Company's Home at 15th and H Streets.

LARGE PROPORTIONS

Frontage of Fifty Feet on One Street,

150 Feet on the Other.

MARBLE OR GRANITE BUILDING

Will Have Well-Appointed Offices for Banking and Real Estate

Business.

A sketch plan of the building which is to be the new home of the Union Trust Company was approved at a meeting of the board of directors of that company which was held yesterday. As rapidly as is coning drawings will be made by the architects, Wood, Donn & Deming, in connection with Mr. Bernard R. Green, the latter, as engineer, being associated in the prepara-tion of the plan. It is expected, however,

OPEN TO THE PUBLIC.

Brilliant in the Light of Scores of In-

candescent Bulbs-Stream of

Sightseers.

Through its beautiful gates, brilliant in the light of scores of incandescent bulbs, poured

miring visitors. Not until late in the even-

ing did the stream of sightseers setting

thitherward diminish. Once within the con-

fines of the place of novel sights and en-

tractions, lingered until near the midnight

It had been hoped by the management

benignly over Luna Park when it should

be formally presented to the public. Such a wish it was thought proper in the fitness

of things to induige, but when the clouds overcast the sky and the rains descended

and it was seen that there would be no sliver rays from above to add fair omen to the enterprise, the management, confident

that the merits of the new resort would stand the test of adverse circumstances,

was not inclined to postpone the opening until a more auspicious occasion. And in-

deed the result proved that the confidence was justified. In the deep darkness of the gloomy night the myriads of electric lights shown with a rare brilliance, casting a great glow of radiance into the sky. Such was the extent of the reflected illumination that it was seen in all directions for many the state of the enter your less than the your less than the enter your less than the your les

miles, seeming to beckon the eager votaries

Wealth of Architectural Skill.

toward the east, the visitors found them-

selves in the midst of a wealth of architec-

tural skill bathed in a perfect flood of light.

Like the fabled palace of the sun the tem-

ples of pieasure stood reared aloft on col-umns, sparkling with lights and glittering with brilliant colors. The scene was truly bewildering in its spiendor. Grouped in irregular fashion about a great oval center-ground, in which is a lagoon, the buildings atretch around both sides of the high pro-

montory on which the park is constructed. The general scheme is characterized by an

Individual diversity of design. Varying types, covering widely separated periods, are represented, including Moorish, Japanese, Arabic, Gothic, Byzantine and Corin-

Minarets, Spires and Towers. The minarets, spires, towers and turrets

lend suggestion of oriental charm. Clothed

in their beautiful lights they portray the

bewitching visions of rich and elegant cities famed to have flourished in the times

of the Arabian nights.

Luna Park is an elaborate example of the modern type of exposition parks. It was built by Frederick Ingersoil of Pittsburg, Pa., at a cost approximating \$500,000. The season which opened yesterday will close September 28. The park is located just four miles from Washington and about the same distance from Alexandria.

the same distance from Alexandria. on the Washington, Alexandria and

that the preliminary details will be com-pleted so that active building operations can be begun during the present season. The be begun during the present season. The building now on the property which is to be occupied by the trust company, at the southwest corner of 15th and H streets, is to be vacated very soon by the present tenants, who are conducting there the Colonial

It has not been decided what material will It has not been decided what material will be used in executing the very handsome and attractive design which has been adopted by the directors of the company. It is the desire to use white marble, and unless the expense is too great that will be done; otherwise, granite of a light shade will be used. Although the new structure will cover broad frontages on both streets, over fifty feet on H street and three times that on 15th street, the size of the building as seen from the street will only be about one-half of its actual size, as the area that will be covered will include an L. which extends back from 15th street some 145 feet. back from 15th street some 145 feet.

Of Classic Design.

The design of the new structure is classic and the aim will be to show by its substantial construction and simple lines and freedom from unnecessary decoration, the important character of the business which is to be carried on there. The principal feature of the two fronts will be the colonnades of massive columns five feet in diameter, larger than those in the colonnade of the Treasury building. This colonnade will extend through five stories, the pillars end-ing in capitols Cornthian in design and sup-porting an entablature with a decorated frieze and cornice. Above will be an attic story. The foundation for this portion of the building consists of a mezzanine story and the principal first story, both of which sistent with careful preparation the work- and the principal first story, both of which are entirely plain in design, and this is true of the cornices which mark the separation of the architectural divisions.

The first story, in which will be the bank-

CITY OF AMUSEMENT outside the building area being devoted to picnic groves and recreation grounds. Along the Trial.

Through the grounds runs the broad DOORS OF LUNA PARK THROWN Trail, flanked by amusement buildings. Among other attractions are: Chutes and lagoon holding 350 000 gallons of water, scenic river 2,200 feet long; circle swing 163 feet high, with ten cars; trip to Rockaway, half a mile long; mammoth carroussel; roller coaster with speed on one incline of 180 miles an hour; "laying hen;" "cat house;" photograph gallery; mutoscope par-lors; "palace of illusions;" "hall of mys-Japanese tea gardens; "scenictori-Egyptians palmists; tours of the world; rifle range; "Chateau Alphonse; opened last evening in a blaze of glory.

The picnic park is a landscape of unusual attractiveness, with lawns, glens and grottees, trees and brooks. From all parts of this park the band playing on the musical pavilion may be heard. There is also a numerous throng of wondering and ada picnic house, with kitchen, pantry, range,

Band concerts of popular airs will be given every Friday night and sacred music will be discoursed every Sunday. Three or, four hundred seats, free of extra charge, are provided for visitors in front of the music pavilion. The gate admission price of 10 cents also gives access to the hippochanting visions the visitors were loath to depart. Many charmed in the malze of atdreme performances. There is an immense dancing pavilion commanding a view of the that the new moon would shed its beams entire park and the surrounding country.
For the free use of the patrons of the park
a hospital has been equipped, and a physician and a trained nurse will be in attendance.

INSANE ASYLUM INQUIRY. Dr. Blackburn Tells of the Autopsies

He Has Performed.

The investigation of the Government Hospital for the Insane was continued yesterday by the special House committee. Dr. R. W. Blackburn, who is now, and has been for twenty-two years, pathologist of the institution, said he had performed 2,095 autopsies during that time.

"One of the things charged against you, interjected Representative Smyser of Ohlo, "is that you are cutting people up over there before they are dead. We want to know whether they are dead before you cut them up, or whether you are the cause."

Dr. Blackburn, in reply, stated that in a few cases he had performed an autopsy three hours after the death of the subject, circumstances. "Would you cut a person up a half hour after death?" queried Representative Hay

of Virginia.

"Well. if I was ordered to do so by my superior," responded the doctor.

"Would you cut them up before death?"

"I would draw the line there."

"I would draw the line there."

"I am glad you would draw the line somewhere." concluded Mr. Hay.

Purchasing Agent M. A. Offutt testified that by purchasing oleomargarine in place of butter for the institution the government was saving \$12,000 a year. Butter would cost 24 cents a pound, while he got "oleo" for 12½ cents a pound. He denied there was anything irregular in the purchase of supplies, and explained that he had made three or four trips a week to the open market in town in an automobile, and spent \$60,000 a year for that class of supplies.

The inquiry will be continued Wednesday. It is indeed a dreamland city. Situated picturesquely, with nature's gifts in lavish abundance, it has, in addition, a wealth of artistic skill, and all so harmonized as to produce a highly pleasing and soothing effect on the mind.

William H. Baum's Will.

The will of William H. Baum, dated September 16, 1904, has been filed for probate. By its terms his entire estate is left to his widow, Lizzie Henning Baum, who is also named as executrix.

Candidate for Degree.

It is stated that the Catholic University of interest next Thursday, when Rev. between here and that place. In construc-tion, this park is modeled after Luna Park in New York, built by the same firm. A feature of the management of the place is that no liquor or games of chance are permitted on the grounds.

The park covers fifty-three acres, the part

or interest rett ritursday, when Rev.

John Augustine Ryan of St. Paul, Minn., gree of theology.

Father Ryan is professor of moral the-ology at St. Paul Seminary, St. Paul, Minn., and was a student at the Catholic Uni-versity during the years 1901-2-3.

and its spacious approach, will be well lighted and conveniently arranged for the transaction of the details of the business of the trust company. The safe deposit vaults and boxes will be on the same level as the banking office, and will be lighted by Purpose of the Company. It is the intention to make this building

strong, massive arches. There will be en-trances to the trust company offices, both

on H street and 15th street, and further south on 15th street will be the entrance

to the elevators and staircases that will give access to the upper stories of the building, which will be arranged for office uses. Still further to the south and near

the extreme corner of the building will be the entrance to the offices of the Thomas

J. Fisher Company. The latter will go all the way back, occupying the space in the "L."
The banking room, with its lofty ceiling

not only an ornament to the city, but one that will be so conveniently arranged as to be well adapted for the business of the company. There will be ample room for the clerical force as well as for the customers not only at the present time, but for the future, as sufficient provision has been made for the growth in business which it has been the experience of the company since its organization to be an expected and necessary part of the record of each year's business.

The president of the company, Mr. E.

J. Stellwagen, as well as the members of the board of directors, who are among the active and enterprising business men the city, have received many congratula tions upon the wisdom of the move they have made in providing a new site for the business, and also in adding to the archi-tectural attractiveness of the city while providing facilities for attending to the

ROUNDING UP MEMBERS

DELAY IN OBTAINING A QUORUM OF THE HOUSE.

Local Compulsory Educational Bill Passed-Increased Pay of District Firemen Goes Over.

The compulsory educational bill for the District occupied most of yesterday-District day-in its consideration, the bill being finally placed on its passage. The measure provides that every child in

the District between the ages of eight and fourteen years will hereafter be compelled to attend a public, private or parochial school during the time the public schools are in session. The only important amendment made in the Senate measure provides that the compulsion shall apply to children as young as eight years instead of six. An attempt was made to obtain favorable

action upon the bill raising the pay of the employes of the fire department, but Representative Mann of Chicago stood in the way. The hour was late—5 o'clock and Mr. Mann wanted a full explanation of the measure calling for an expenditure of \$83,-460 additional. Mr. Campbell of Ohio, in charge of the bill, explained it, but Mr. Mann still objected, and the bill went over until next District day.

Chairman Babcock of the House District committee had twenty-three measures ready for consideration, but only two bills were passed in addition to the compulsory

education measure.

On a division the absence of a quorum was disclosed. Mr. Williams (Miss.), not desiring to raise the point, moved that the House adjourn. Mr. Payne (N. Y.) made a

House adjourn. Mr. Payne (N. Y.) made a similar motion.

"I am perfectly willing that the motion should come from that side of the chamber," said Mr. Williams.

But the motion did not prevail, the republicans voting in the negative.

Mr. Williams made the point of "no quorum" and a call of the House ensued, the yeas and nays being called on the passage of the compulsory education bill.

The sergeant-at-arms and his assistants started on a round of the hotels and other residences of members and one by one the members reported. Mr. Hedge (lowa), after having voted, made a parliamentary inquiry. "Is this compulsory education?" he asked, which created a round of laughter. On the appearance of Gen. Grosvenor (Ohio) Mr. Williams, in a facetious vein, stated that the rules of the House compelled an explanation.

Mr. Grosvenor replied that his presence

that the rules of the House compelled an explanation.

Mr. Grosvenor replied that his presence was the best explanation.

At 7:35 a quorum was obtained, two hours having been consumed in the effort.

Mr. Williams (Miss.) stated that for the first time in the life of this Congress the strict rule of the House had been put in operation as to bringing members before the bar under arrest, and as there seemed to be some misunderstanding in relation to the rule he asked unanimous consent that the whole matter of the making of a quorum be stricken from the record.

Mr. Payne objected, and the House, at 7:40, adjourned.

Veterans to Meet on Lawn.

The members of Gen. Neison A. Miles Camp. No. 1, Spanish War Veterans, have Lowder, at 1704 Wisconsin avenue. Commander G. E. Rausch announces that the lawn meet will be held the evening of June 5, and that refreshments will be served. This move is in the nature of an innovation and may be followed later in the not season by some of the other camps in the Department of the District.

Kes me Bilious

Is said of "green beer"—not of Schlitz.

Schlitz beer is aged in glass enameled steel tanks for months before it is marketed. Fermentation is finished long before you get it.

That is an apparent virtue. But the chief distinction of Schlitz is its purity—a virtue that you can't see. Yet the cost of that purity ex-

ceeds all other

costs of our

brewing.
